Keith Brown FRPS FIPF EFIAP MPAGB APAGB Kate Brown LRPS CPAGB: - "and then there were two". Keith's serious interest in photography started when he joined Aston & Erdington PS in the 70's. He found the transition to digital AV difficult, particularly as he has a love-hate relationship with computers. But then he met Kate and with help and encouragement he was able to work towards producing digital sequences, and in particular his award winning production "The Quiet One" about the life of George Harrison. Kate's connection with photography began as a small child when she was occasionally allowed to use her dad's camera. She acquired her first SLR in her early twenties but never joined a camera club. After meeting Keith and being introduced to the photographic society world, she has enjoyed learning how to make better use of her camera, and has also started to produce her own AV's.

Howard Bagshaw ARPS: - Howard has been a keen photographer all his life, but it's only since he retired that he started to make AV's seriously. He's a member of the Wilmslow AV group and is also currently chair of the Staffordshire AV group. He finds the opportunity to share and get comments on his work at these meetings to be invaluable. Howard has entered club, regional, national and international competitions and done well with some sequences, most recently with 'Migrant Mother' and 'Tough Guy Challenge'. With his wife Carole, he also enjoys watching AV's, marvelling at some but despairing of others. He believes that there are many valid uses of the medium and has no hang-up about animations as long as they add to the presentation. For Howard the story or message that the AV portrays is most important.

Attendees Sequences Your opportunity to entertain or receive constructive and useful comments.
